Evergreen Education Foundation

The Evergreen Education Foundation is a **US based non-profit** organization with a strategic focus on improving education for children and young adults in rural China; **promoting information literacy** via school and community libraries; and **servicing as a bridge between China and the world** in joint efforts to better the rural education.

The Evergreen Education Foundation (EEF) was founded 2001 by a group of Chinese and American professionals and academics. The **Foundation's purpose is to enhance educational opportunities for middle and high school children in rural China**. Seed money has been provided by Mr. Richard Hsin, a Hong Kong entrepreneur and philanthropist.

Programs of Evergreen Education Foundation **focus on developing rural schools and community libraries**, capacity building of educators and librarians, and helping passionate yet financially disadvantaged rural students to secure education opportunities. Our programs are constantly evolving to catch up with fast changing students and community needs. Nonetheless, Evergreen works through **three fundamental programs** to achieve its goal.

The Library Information Literacy Program focuses on developing rural school and community libraries.

The Scholarship Program sponsors promising but financially disadvantaged students.

The Teacher Development Program builds the skills, abilities and knowledge of educators and librarians through workshops, conferences, and study tours.

First EEF & DFRobot Partnership · 2 Months

6 Evergreen Affiliated Schools · 7+ Teachers 90+ Students

6+ Free DFRobots Kit Sets with Instructions

LOOK FORWARD + PARTNERSHIPS & COLLABORATIONS

EEF plans to continue with its STC STEM workshops and Maker contest. In 2017, EEF plans to fund 30 EEF affiliated STEM educators to attend 2 workshops and 1 study tour in Shanghai to explore more creativities of makerspace in high schools in rural China. Moreover, our 2017 Maker Contest will open this summer. If you or your organization would like to join effort with us, EEF would like to talk to you regarding partnership & collaboration opportunities.
