## Dear Friends and Supporters:

During this global economic recession, Evergreen, along with many other non profits, has been hit hard. Our devoted staff, friends and volunteers are facing this challenge to provide much needed help to the rural communities with passion, hard work and through our innovative programs.

Below are a few examples of why we need your help now more than ever to continue this important work.

### Providing Health Care Education through our Libraries at Tongwei 通渭:

#### With your help:

- Children are learning oral hygiene for the first time
- Children can get basic physical exams and counseling
- We can provide health care books and CDs to school and public libraries
- We can provide health care and good hygiene practice workshops to parents
- 

### Developing Information Centers for local schools at Tianzhu 天祝 :

#### Your donations enabled:

- Three generations to learn together
- The preservation of local culture and history
- Introducing village schools and minorities to technology

Your generosity inspired  
Tianzhu's teachers volunteer team

A volunteer helping local residents get online for the first time.

Your donations of \$800 each will Guide many Small projects to increase readership at our libraries:

- Reading Poetry aloud
- Study local history
- Guiding young scientists and Mathematicians
- Study local science of jelly fish
- Participating in developing a student newspaper
- Encourage classroom reading
- Holding lectures given by local writers
- understanding local culture

In 2009, 16 of these small projects were funded. They are so successful that many more are planned for 2010. We need your help!

Your support for our Library Automation enables us to put on learning workshops:

Prof. Mao with his volunteer students from Taiwan's Fu Jen University in Shanxi helping with library automation workshop.

Program Director Zhang Yu and helper preparing for the workshop in Shanxi

Please provide us with your suggestions and comments: (use another sheet of paper)  
I would like to contribute:

- \_\_\_ \$500 Books for a small library  
*(We need books for 23 small libraries)*
- \_\_\_ \$300 Teacher training per teacher  
*(Expense for attending workshops)*
